

Claims

[c1] What I claim as my invention is:

1. The method of using gel type non-toxic water base adhesive materials on human lips for sealing the mouth while sleeping to prevent snoring and mouth drying.

[c2] 2. The method of packaging the gel type materials of above claim 1 in the bottles.

[c3] 3. The method of packaging the gel type materials of above claim 1 in the tubes.

[c4] 4. The method of using non-toxic water base adhesive materials on human lips for sealing the mouth which can be washed off or peeled off after the use.

[c5] 5. The method of using non-toxic washable soap bar type lipstick adhesive materials on human lips for prevention of snore and to prevent mouth drying while sleeping.

[c6] 6. The method of using the lipstick type lip sealing materials of above claim 5 packaged in lipstick type package.

[c7] 7. The method of using the lipstick type sealing adhesive materials of above claim 5 which will be washed off or peeled off after the use.
